Ultimate Challenge

Nick Price, the former world Nr.1 player, has teamed up with the wellknown golf course architect, Ronald Fream, to create a uniquely designed 18 hole course with 27 varied greens that enable the golfer to play the same course several times with different greens and new challenges. The Gramacho Course has hosted the Ladies Open and the European Senior Tour Qualifying School. The design technique has positioned the greens and protective bunkers so that an 18 hole round is a genuine challenge. The characteristics already existing on the site, from the boulder outcrops and dry stone walling to the fig, carob and olive trees, have been complemented by artfully positioned lakes and bunkers. These hazards complete the challenging but attractive course.

Finest Championship Golf

The Pinta Course is one of the best-designed courses in Europe. It is a Championship course with an exceptional layout designed by the famous American golf course architect Ronald Fream. Since 1992 it has earned a deserved reputation for the outstanding levels of maintenance and its design, which makes it a challenge to golfers of all standards. The Pinta Course was 1 host to the European Seniors Tour Qualifying Final. The rolling terrain is dotted with carob, fig, almond and olive trees. A very special feature of this course is one olive tree that dates back more than 1200 years.

Strategic Masterpiece

Silves is a serene spot, but the course is anything but the proverbial walk in the park. Silves encourages and rewards attacking play. The excellent condition, all year round, is ideal for low scoring. A relentless test in precision, this course has no peers. It is the archetype of man-sized parkland golf. Most holes offer a spectacular mountain and valley view, overlooking palm trees and olive groves. The severity of the bunkering is enough defence against the onslaught of the game's big guns.
